

Research and Training Initiatives (RTI) - Request For Bioimaging Funds

This form is used to request funds from the RTI office for bioimaging projects in the W. M. Keck, and the Electron Microscope laboratories. Funds are provided for limited instrument support for proof-of-concept experiments for future grants, or to fulfill a prior funding commitment on a grant secured before the implementation of instrument fees in 2004. Researcher should consult the current instrument fees on the Web to budget the amount of funding requested from the RTI office. Below are the direct page links for fees of each lab.
